

## BridgeQuest: Spanning a Virtual World

**Leaders need to equip themselves and their teams with the tools to connect, communicate and collaborate across any distance.**

### BridgeQuest Overview:

BridgeQuest is a highly interactive virtual team experience using a state-of-the-art digital maritime simulation. It applies Bridge Resource Management Principles from the maritime industry to high performing remote teams in any industry. Remote teams collaborate on complex problems in real-time with immediate feedback.

BridgeQuest has been developed in partnership with Instructors at the United States Maritime Resource Center (USMRC) and is hosted by Wartsila, the world's premier developer of maritime bridge simulators.

**Length:** 1-day team experience with 6 months of Team Coaching support. Supplemental individual coaching available.

**Who should attend:** Leaders who need to equip themselves and their team with the toolkit for successfully leading and managing in a virtual environment

### Outcomes:

*Increased capacity with the tools, skills & mindsets of virtual leadership & management*

**Situational Awareness**  
**Clear Communications**  
**Prioritization**  
**Influence**

**Learning & Change Agility**  
**Feedback**  
**Conflict Management**  
**Resiliency**
